DHRUV SHARMA

AI/ML Engineer | Generative AI | LLM & RAG Systems

Delhi, India • dhruvsharma292005@gmail.com • +91-9871783632 • LinkedIn • GitHub

PROFESSIONAL SUMMARY

AI/ML Engineer specializing in generative AI and LLM applications, with hands-on experience building RAG pipelines, autonomous AI agents, and production-ready systems using Python, LangChain, MCP, and FastAPI. Skilled in integrating vector databases (FAISS, Chroma, Pinecone), designing retrieval and re-ranking systems, and evaluating LLM outputs for reliability and deployment across cloud environments.

PROFESSIONAL EXPERIENCE

AI Trainer — Handshake AI (Project Dynamo) **Jul 2026 – Aug 2026**

- Evaluated and improved LLM-generated responses across complex reasoning tasks, assessing factual consistency, instruction adherence, and output quality against structured evaluation guidelines.
- Applied human-in-the-loop feedback and prompt engineering to identify failure modes and strengthen model reliability, reasoning accuracy, and response quality.

AI/ML Engineer Intern — DRDO (Defence Research & Development Organisation) **Jan 2026 – Mar 2026**

- Architected and deployed LLM-powered RAG pipelines and autonomous AI agent systems in a high-impact R&D environment, applying generative AI and deep learning to complex engineering problems.
- Built AI agents with LangChain and MCP frameworks for multi-step reasoning and document retrieval, gaining full-lifecycle exposure to applied AI research and cloud deployment.

Lead Data Science Intern — Renu Sharma Foundation **Aug 2025 – Oct 2025**

- Engineered LLM-integrated data pipelines for resource optimization, driving a 15% efficiency gain through modular, reusable Python architecture.
- Fine-tuned BERT-based NLP models with TensorFlow and Scikit-learn across 50,000+ records; automated preprocessing workflows, reducing manual effort by 25%.

TECHNICAL PROJECTS

DocuSense AI | RAG-Powered Document Intelligence Platform **Jan 2026**

- Architected a full-stack RAG pipeline with LangChain, FAISS, and custom retrievers for context-aware document Q&A across PDF/DOCX/TXT with sub-second response times.
- Built a FastAPI backend with Google OAuth, modular NLP modules (summarization, keyword/entity extraction), and a LangChain conversational agent; deployed on Vercel with AWS-ready design.

AutoML Pipeline | LLM-Ready Data Automation Framework **Sept 2025**

- Built a scalable automated preprocessing framework feeding LLM input pipelines and vector-store ingestion, accelerating development cycles by 30%.

Bookwise ML | Vector-Based Recommendation Engine **Nov 2025**

- Built a hybrid recommendation engine with TF-IDF embeddings and FAISS cosine-similarity retrieval; served via FastAPI with fuzzy matching at sub-200ms latency.

SKILLS

AI & Generative AI: LLMs, RAG Pipelines, LangChain, LangSmith, MCP, AI Agents, Prompt Engineering, LLM Evaluation, Generative AI
Machine Learning: Scikit-learn, TensorFlow, PyTorch, NLP, BERT/GPT Fine-tuning, Deep Learning
Vector Databases: FAISS, Chroma, Pinecone, TF-IDF
Programming: Python (Pandas, NumPy), SQL, NoSQL, FastAPI, Flask, React/Next.js
Cloud & Deployment: AWS (Lambda, EC2, S3), Firebase, Vercel
Tools: GitHub, GitHub Copilot, Claude Code, Power BI

CERTIFICATIONS

- Data Science Professional & Power BI Certification, IINTM, 2024 – 2025
- Cloud Computing & Software Testing, NPTEL, 2023 – 2024

EDUCATION

Master of Operational Research, University of Delhi (DU) — 2026 – 2028 • Pursuing
BCA (Computer Science), IINTM (IP University), Delhi — Exp. 2026 • 8.3 CGPA
Class XII (CBSE), Hira Lal Jain Sr. Sec. School, Delhi — 2023 • 78%
Class X (CBSE), Canterbury Public School, Delhi — 2021 • 72%
